NEW INTRODUCTIONS FOR 1957

BOW BELLS (Medford) 400

Once in a decade a truly great gladiolus appealing to, both the exhibitor and the cut-flower grower, makes its appearance. Bow Bells is such a glad. It's pristine white beauty and graceful form will endear it to the exhibitor. Extremely early and remarkably productive makes it the cut-flower grower's dream.

There is not a trace of distracting color in the frosty white, 4½" lightly ruffled, wide open florets. Spacing and facing are excellent, will open 8 florets at a time. Bow Bells may be cut tight as it opens well in water. Height is 50", bud count 18 to 20. Bulb production heavy and germination excellent. An American Home Achievement Winner. Best basket at both the West Virginia and Keystone State Glad shows.

Retail Prices: Large, \$1.00, Med., .75, Small, .50. 1 bulb any size, plus 10 bulblets for \$1.50.

It is tall growing, strong straight stems reaching to about 60", with 28 to 30" flowerhead, 19 to 22 bud count and opens 6 to 8 at a time. Has good healthy foliage, good bulblet production. A fine show glad and an excellent commercial of great beauty. Public reaction to Blue Smoke has been phenomenal. An American Home Achievement Winner and many other Awards. One the Garden Club Arrangers should go for. We like it.

Retail Price: \$2.00 each any size. Bulblets 10, \$2.00

GOLDEN PALOMINO (417) Summerville

Introduced in 1956 as Palomino, Golden Palomino was the highest rated non-patented 1956 Introduction in the N. A. G. C. Symposium. The color is golden buff, shading slightly deeper toward the edges with a soft orange throat-spot. It produces 29" flowerheads, 21 buds, whose 5" florets open 8 and show 8 in color. Beautifully ruffled. Promising for shows and as a cut flower.
